The following is a summary of the August 21, 2019 telephone call with Pioneer Fellowship House employee Tori Ugale. On this date, I dialed the above telephone number and spoke with the individual who answered the telephone. I stated my full name and my place of employment and then stated that I had a general question about the facility and its showers and restrooms. Ms. Ugale was willing to speak with me and conveyed the following:

Each unit has two bathrooms and one shower. The shower area is shared with one bathroom and then there is also another bathroom in the unit. Each unit is made up of about seven (7) individual residents. There is one (1) female unit and about ten (10) male units. The shower/bathroom area is for a single occupant. Ms. Ugale described that the units are set up similar to apartment living.

I thanked Ms. Ugale for her time and concluded the telephone call.

On August 22, 2019, I dialed the above number and spoke with Pete Milosovich who stated the following:

They currently have one (1) female unit and nine(9) male units occupied. In all units, there are both single occupancy rooms and double occupancy rooms. Every resident there has their own bed. Some share a room with one more person and some have a room to themselves.

I thanked Milosovich for his time and concluded the telephone call.
